INTRODUCTORY

We herewith present the fifth volume of the San Diego Directory.

Again we have to congratulate our fellow citizens on a year of remarkable growth and prosperity. The great strides made by San Diego during the past year toward its place as one of the great cities of the country, are evidenced in many ways—the building record, the postoffice receipts, the number of new industries and mercantile houses, all attest this growth. But nothing shows it more certainly than does this Directory. The size of this volume remains about the same as in 1906 as the center line advertisements have been done away with, the type is also one size smaller, giving the book a better typographical appearance.

We have used all our endeavors, backed by many years of experience to make this directory complete and as free from errors and omissions as is possible. A publication of this nature entirely free from mistakes and omissions never was and never will be, but we have conscientiously and persistently labored to reduce such to a minimum.

We beg to state that the delay in publication of this year's edition is due to the mistake of allowing time to elapse between the canvass and the printing, the increase in population and the many new business firms that have been started since the first canvass, necessitating almost an entirely new one to bring it up to date.

We have endeavored to keep step with the growth and progress of the City, and we believe the present volume will be found to contain all the necessary features of a modern up-to-date work of this kind. By our system of exchange with other cities, the San Diego Directory will find a place in the Directory Libraries of all the principal cities of the United States and Canada and several European and Oriental cities.

POPULATION.

The canvass, completed Sept. 1, shows **38,240** residents and 4,185 transients, tourists and others who are not considered permanent residents. At the completion of the canvass July 1, 1906, San Diego had a population of 30,428 residents, which makes an increase of 7,812 in fourteen months.

For the liberal patronage bestowed on this work and also for courtesies extended to our ennumerators and solicitors during its publication, our cordial acknowledgements are returned.

THE PUBLISHERS.

SAN DIEGO, CALIFORNIA.

Mr. BUSINESS MAN,
Anywhere,
California,

Dear Sir:

Fire will burn books, accounts, valuable papers and records as surely as a stock of goods and insurance does not protect your losses of the former

Loss of books, accounts and records frequently cause loss of insurance, and always causes embarrassment, expense and delay in adjusting claims.

Safety lies in guarding these instruments by keeping them in a HALL'S STANDARD SAFE, which is absolutely fire-proof.

My friend, you have books, accounts, valuable papers and records, have you a safe? Is it fire-proof? Is it large enough for your requirements? Think! Man! Can these be answered affirmatively? If not, call, write or telephone to the above address. 'DO IT NOW!' Then you can sleep better nights, and need not worry when the fire bell rings.

Awaiting your call, we remain,

Yours truly

One of the Prettiest and Most Healthful Valleys in Southern California and is a large commercial center, drawing trade from a radius of twenty miles around. Its soil is productive, producing all semi-tropical fruits grown in Southern **ESCONDIDO** California. Hay, grain, oranges, lemons, raisins, wine, grapes, honey and gold being its chief items of export. It has a complete water system, with plenty of water for irrigation and domestic use. It is truly a valley of beautiful homes.

San Diego Business and Academic College

School in Express Block

This College teaches Book-keeping as a Science. The Commercial Course, as prescribed by the "Great American Accountant Association," is taught. We make a specialty of all classes of Expert Accounting, time-saving Bookkeeping systems, Auditing Books of Banks, Corporations, etc. We teach German, French, Spanish, Hollandish, the low and high dialects, free of charge with the course.

SHORTHAND

We teach the Gregg System of Shorthand, because it is recognized to be the easiest to write and to read.

This is the fellow who is always out of a job. He suffers from mind wandering. He is the nightmare of his employer, because he is unreliable. We train our students to concentrate their minds on the business at hand

Three thousand of the best schools in America teach it. We prepare pupils for their University Examinations. We fully guarantee our work.

Pupils that finish our full course are certain of a position.

Our school is the best equipped Accountant College in California.
